

CONTENTS

Feature of This Issue

Potential, supply and demand prospect of natural gas in the second deep space of Yangtze Craton and its peripheral basins TENG Jiwen (1317)

Economic Geology

A preliminary study on the time-space-material structure of the granite-related metal metallogenic systems LI Houmin, LI Lixing, LI Xiaosai, SHEN Hongfei, SUN Xinyu (1342)

Occurrence of rare-dispersed element Cd in the Jinding lead-zinc-cadmium-thallium deposit, and its ore genesis HU Rong, DUAN Hongyu, YANG Xianzhen, YANG Lifei, LI Qiaoxin, WANG Changming (1350)

Integrated ore prospecting model and ore-controlling characteristics of Liujiaxia gold deposits of Shanyang County, Shaanxi Province FAN Zhongping, CHEN Xiaogang, ZHANG Wang, WANG Wei (1367)

Geological characteristics and prospecting direction of Tongyuliang copper mine area in Hami City, Xinjiang GUAN Gao, TIAN Chaojiang, FANG Tonghui, LIU Zhiqiang, XIAO Yu, WANG Lei (1379)

Geological characteristics and exploration prospecting of the Tongdongzi Cu-Ni-Co deposit in the eastern Hebei Province CUI Wei, XU Lingang, GAO Xiaomin, WANG Chenguang, MA Wenjie, SUN Xiangjun, LIN Xiurui (1388)

Research of micro-pore structure and seepage characteristics of Portugal Reservoir in Lamadian Oilfield ZHANG Jingjun, SUN Jiayue, CAO Yanfang, ZHONG Xin, LI Shunxin (1402)

Analysis of geothermal chemistry and isotope spatial differentiation characteristics in Hunan Province JINGYingli, SHUAI Huan, SUNYangyan (1412)

Exploration Technology

Extraction of deep comprehensive information and its indicative significance of the Geriletu copper lead zinc polymetallic deposit in Ejina Banner, Inner Mongolia YIN Yanguang, JIA Runxing, FANG Weixuan, LI Shuguo, QI Yahui, ZHANG Kai, LI Pugang (1421)

Application of prospecting prediction based on multi-source geoscience data	YU Lihong, ZHANG Shanliang, WANG Guojun (1432)
The application of comprehensive geophysical methods to mineral geological survey in Saibagou region	FU Jian, ZHANG Jingye, LIANG Jiale, LOU Bin (1440)
Using the method of geological interpretation based on comprehensive geophysical data to determine the location of geothermal resource reservoirs in the Sheyanghu area of Baoying, northern Jiangsu	SONG Tao, ZHAO Song, BAO Yi, WU Jianfeng, WU Can, SUN Lu (1450)
The research of 2D NMR application in evaluation of igneous rock	ZHANG Chuanju, WANG Xiannan, WANG Jian, XU Hongliang (1458)
The characteristics of primary halos zoning of the Shenjiayao gold deposit in western Henan and its geological significance	HU Llifang, GUO Jiayi, WANG Yongzheng, GUO Kaixuan, JIN Wanglin (1464)

Hydrogeology, Engineering and Environmental Geology

Progress on groundwater's role in the earth system and groundwater modeling for earth system models.....	YANG Jianfeng, ZUO Liyan, ZHANG Cuiguang, YAO Xiaofeng (1473)
Heavy metal contamination of soil and health risk assessment of crops in Sanshiliuwan mining area of Hunan Province and ecological restoration strategies	TANG Hui, MEI Jinhua, CHEN Hongwei, ZHU Zhichao (1484)
Accumulation and migration characteristics of selenium and heavy metals in rice-root soil in karst area of South Guizhou	ZHOU Wenlong, FAN Yunfei, LIU Qing, ZHANG Tao, YANG Zhizhong, SONG Xiaojun (1494)
Soil geochemical characteristics and heavy metals ecological risk assessment in vanadium mining area	XU Yong, LI Delu, ZHANG Xiaotuan, YANG Zhidong, WANG Shaofei, HE Qianyang (1504)
Development regularity of collapse disaster in typical geomorphic area of Weiyuan Dome	LI Jianxiong, JIANG Fatang, LUO Haidong, SHI Xiaowen, WU Shunbin, CAO Yuehong, LI Minghui (1517)
